Powerskigh was founded In Johannesburg in 2022 after a gap in the market was discovered. Before inception our founders had delivered a range of business services to different clients and decided to merge to form one entity that would provide all the individual services previously offered expand even more rapidly due to the combined efforts and diverse skillsets.

Through research we discovered that much of the consultancy work provided to clients is done by smaller independent consultancy firms and this allowed us easy entry into the market.
